

Sonic HealthPlus manages its flu vaccination program over a 5 month period from April to August. We offer flexibility to have our immunisation nurses attend your workplaces and deliver the vaccinations or for your employees to visit any of our clinics nationally.

The 2021 program offers the Quadrivalent Influenza Vaccine, other vaccine types may also be available in-clinic, for clarification please [contact your nearest clinic](#). The Quadrivalent flu vaccine protects against four strains of influenza viruses. See our [website resources](#) for product information.

Our program includes:

- National coverage
- A dedicated Flu Team to coordinate your services
- Priority access to vaccines via the purchase capabilities of the Sonic Network
- Support from a team of medical practitioners who provide our nurses and clients quick, over the phone doctor advice, ensuring a safe and professional delivery
- Professional marketing materials to support the success of your program
- Digital (online) booking systems and consent forms.
- Reporting on program uptake (On request)
- Vouchers to use at over 45 locations nationally.

Site Services Solution - Mobile Vaccination Clinics

Our Site Services division can provide your worksite or office with first-class immunisation services from within your own premises. Our staff are experienced in working across a variety of industries and locations and are well versed with managing the logistics of mobile health services. Our onsite program will offer Quadrivalent Influenza vaccine only and will be available from April through to the end of August 2021 (subject to availability).
